File Information

Ldtastic1.hex: LandTastic object file, Version 1.0, Hex format.

REVISION HISTORY:

Version 0.1: Dec-22-2004. Beta Release. Not Public.
Version 1.0: Jan-19-2004. Initial Public Release.
Version 1.1: Jun-01-2005. Enabled Brownout detection.

Programming Instructions

You can use: PIC12F629, PIC12F675.

The PIC12F6xx is a "Flash" part, so it can be flash reprogrammed many times. Please keep this in mind if updated firmware is posted on the RC-CAM web site (you can conveniently re-use the PIC chip).

You MUST use the correct configuration fuses during chip flashing. The fuse information is found at <http://www.rc-cam.com/ldtastic.htm>

Installation Instructions

Please see <http://www.rc-cam.com/ldtastic.htm> for installation instructions.
